## **Lewis Store Ornament**

*1200 Caroline Street, Lewis Store*

The **Lewis Store ornament** design was inspired by the unique profiles of the historic Lewis Store building, a rare example of surviving commercial architecture from the early 1700s. The building, constructed circa 1749, was enlarged from one-and-a-half to two stories circa 1807 and features distinctive stone quoins for the exterior corners. The Lewis Store was donated to the Historic Fredericksburg Foundation (HFFI) in 1996, and work began on its restoration. Preservation efforts continue to this day on this historic building.

This ornament was designed and crafted by local woodworker Jesse Rhines using the historic wood of the Lewis Store's **original summer beam** (structural beam), which was replaced in 2019 due to condition.

Sales of this ornament help support the programs of HFFI, a non-profit organization dedicated to preserving, protecting, and revitalizing the distinctive environment and cultural resources of the Fredericksburg area.
